

PROTECTOR OVAL CYLINDERS

- Solid Brass Barrel and Casing
(Cold Extruded Casing for better wearability).
- C4 Broaching x 34mm standard length
- Stainless Steel Spring
- Super Precision Machined Pins with rounded end
- Z Cam fitted as standard – others on request
- Hooded barrel front is slotted so key head actually turns the barrel and operates mechanism – rather than the often frail (deep cuts near shoulder) key shank
- Large easy operation Keyhead with Coloured ID inserts.
- Can be supplied keyed alike, keyed to differ, with OZX1 restricted barrel or your own suitable restricted barrel can be fitted
- Extended cylinders (54, 74, 94mm) available ex stock
- Extensive specialist lock-smithing / manufacturing – please enquire
- Complementary range of Euro Profile cylinders also stocked
- Brass, Chrome Plate & Satin Chrome finishes as standard
- Compatible with Lockwood, Legge, IR, Boyd etc. Architectural Locks
