

- Solid Brass Barrel and Casing
(Cold Extruded Casing for better wearability)
- Stainless Steel Springs
- Precision Machined Pins with Rounded end
- Hooded barrel front is slotted so key head turns the barrel and operates mechanism – rather than the often frail (deep cuts near shoulder) key shank
- Large Key head with coloured ID inserts
- Can be supplied keyed alike, keyed to differ, with OZX1 restricted barrel or your own suitable restricted barrel can be fitted
- Extensive specialist lock-smithing / manufacturing – please enquire
- Extended cylinders (45mm) available
- Brass, Chrome Plate & Satin Chrome finishes as standard
